## About the Speakers

### Prof. Dr. Goh Bee See

Dr. Goh is the Director of Institute of Ear, Hearing and Speech, Universiti Kebangsaan Malaysia (UKM) and Professor of Otorhinolaryngology- Head and Neck Surgery at The National University of Malaysia (UKM), Kuala Lumpur, Malaysia. She has been a lecturer at the Faculty of Medicine UKM since June 2003, graduated with Medical Degree in UKM in 1996 and completed her Otorhinolaryngology-Head and Neck Surgery residency at the same institution in May 2003 and received Marhakim Award as the Best Candidate. In 2007, she further her training in paediatric ENT at Cincinnati Children Medical Centre, Ohio, USA and clinical attachment at Great Ormond Street Hospital, London in 2012. Her clinical practice in the tertiary hospital has centered on the management of paediatric ENT and passionate in the management of hearing loss. She has performed many cochlear implant operation, Baha implant and other ear surgeries. She has also authored more than 60 journal articles and active in conducting research in the related field. Dr Goh has delivered many lectures in local, regional and international scientific meetings.

### Associate Professor Dr. Rafidah Mazlan

Associate Professor Dr Rafidah Mazlan is a senior lecturer and the Head of the Audiology Programme, School of Rehabilitation Sciences at Universiti Kebangsaan Malaysia. She received her first degree in Audiology from UKM. In 2009, she received her Doctor in Philosophy from the University of Queensland. Her research and clinical interests are in all facets of pediatric audiology but she has a special interest in the field of early identification and diagnosis of hearing loss and middle ear assessment in young infants. Her research articles have appeared in peer-reviewed key international journals in the audiology field. She has also written book chapters on assessing middle ear function in infants.

### Dr. Noor Dina Hashim

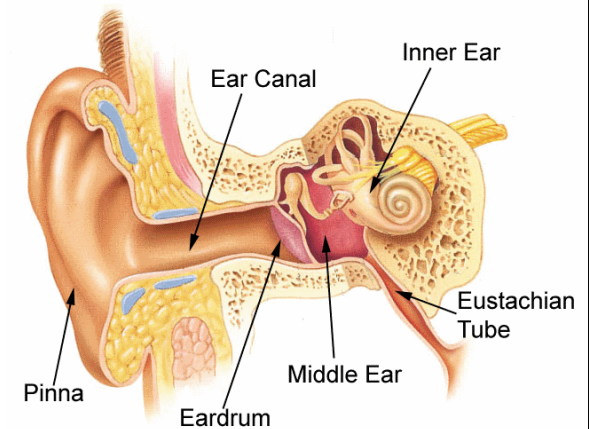

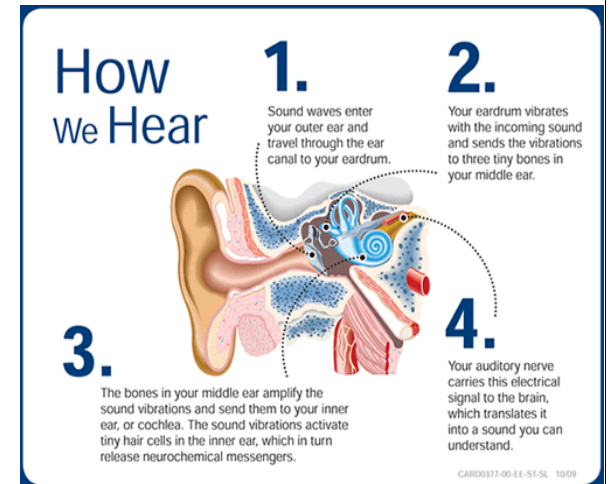

Dr. Noor Dina Hashim is an ENT Surgeon and a Lecturer at UKM Medical Center (UKMMC). She received her Medical Degree from UKM in 2005. She work as an ENT Specialist since 2013. She is also part of Cochlear Implant and Combine Cleft Team at UKMMC. Her budding interest is in Otology.

### Ms. Tey Shi Rou

Ms. Shi Rou works as a pediatric speech-language pathologist in the Institute of Ear, Hearing and Speech (Institute-HEARS), UKM. She works closely with families and the children with hearing impairment, including running one-to-one intensive therapy, conducting playgroup and parents support group regularly. Early this year, Shi Rou attended an auditory-verbal training program in Cochlear Training and Experience Centre, Jakarta for a month and she is also currently working towards the certification as a Listening Language Specialist (LSLS Cert. AVT).

5.00PM – 5.30 PM	Management of Hearing Loss in UKM <ul style="list-style-type: none"> <li>Prof. Dr. Goh Bee See</li> </ul>
5.30 PM – 6.00PM	Tea and end

<b>PROFOUND</b>	People with profound hearing loss will struggle to hear even the loudest sounds, including a jet engine or a pneumatic drill.
<b>SEVERE</b>	Severe hearing loss could mean struggling to hear a dog barking, a baby crying, most conversation, or loud traffic.
<b>MILD</b>	Mild hearing loss means a person might struggle to hear some conversation, the sound of a clock ticking, or birdsong.
<b>NORMAL</b>	Normal hearing range includes sounds as quiet as a tap dripping, leaves rustling on a tree in the wind, or the sound of footsteps.
